Join the Friends of the Orchard Park Public Library

Friends 2023 scholarship winner, Maili N., describes the library as “a key connecting point in our community.”

Offering over 400 programs to more than 13,000 attendees and serving 115,000 visitors in 2022, Maili is right! But the library would not be able to offer all these programs or provide as many amenities to visitors without the support of the Friends.

As a 501(c)(3) organization, the Friends of the Orchard Park Public Library provides financial support to help the library fund children and youth programs, author visits, family events, workshops, books, technology, furniture, and more.

Our support is made possible through the kindness and generosity of Friends members.

We want to increase that support and make the OP library even better for future generations.

Join online with QR code below or use **paper application** to the right.
